HARSH SAHU

+91 93351 69651 | harshcse430@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science and Engineering student (CGPA: 7.5/10) with hands-on experience in full-stack web development, AI/ML, and community leadership. Built and deployed virtual laboratories for IIT Kanpur and an AI-powered plant disease detection system. Shortlisted for Smart India Hackathon (SIH) and IEEE Ideathon. Currently serving as Secretary at CSI Ambalika and Campus Lead at Open Source Connect India. Seeking on-site internship opportunities across India in Software Development or Frontend Engineering.

TECHNICAL SKILLS

Programming Languages: C++, Python, Java, JavaScript

Web Technologies: HTML5, CSS3, React.js (Learning)

Tools & Platforms: Git, GitHub, VS Code, Vercel, Firebase, Figma

Core CS: OOP, DSA, DBMS, Operating Systems, Computer Organization

AI/ML & Tools: Image Processing, ChatGPT, Gemini, Claude, GitHub Copilot

EXPERIENCE

UI/Frontend Developer | We4X AI Technologies And Studio

June 2026 - Present

- Built responsive web interfaces for community initiatives using HTML, CSS, and JavaScript.
- Redesigned website layouts, resulting in improved user engagement and visual consistency.
- Designed visual content and UI components for community events.

AI for Sustainability Virtual Intern | 1M1B (1 Million for 1 Billion)

May 2026 - June 2026 | Remote

- Developed an AI-powered waste segregation assistant prototype using ResNet-50 CNN model, achieving 96% classification confidence for waste items.
- Built a responsive web application with image upload, real-time inference simulation, and impact analytics dashboard.
- Implemented responsible AI features including explainable predictions (Grad-CAM) and edge inference for privacy-preserving processing.
- Project Link: https://1m1binternship.netlify.app/

Java Developer Intern | Codec Technologies

- Completed hands-on training in Core Java and Object-Oriented Programming (OOP).
- Practiced Java programming through coding exercises and basic problem-solving tasks.
- Learned fundamental concepts of Data Structures and Algorithms.

PROJECTS & DEPLOYED WORK

Virtual C++ Programming Laboratory

Tech Stack: HTML, CSS, JavaScript

- Built an interactive virtual lab for learning C++ programming with theory modules, coding exercises, program demonstrations, and quizzes.
- Covers topics from fundamentals to OOP, file handling, and STL.
- Live Demo: https://harsh43054.github.io/Virtual-C-Programming-Laboratory/
- Code: https://github.com/Harsh43054/Virtual-C-Programming-Laboratory

Compiler Design Virtual Lab

Tech Stack: HTML, CSS, JavaScript

- Developed an interactive educational platform for Compiler Design concepts including lexical analysis, parsing, and code optimization.
- Features simulations, parse tree visualization, and hands-on experiments.
- Live Demo: https://harsh43054.github.io/Compiler-Design-Virtual-Lab/
- Code: https://github.com/Harsh43054/Compiler-Design-Virtual-Lab

Agriculture Doctor

Tech Stack: Python, Machine Learning, Image Processing

- Created an AI-based plant disease detection system using Python and basic Machine Learning techniques.
- Applied image processing to predict plant diseases and support agricultural solutions.
- Live Demo: https://harsh43054.github.io/Agriculture-Doctor/
- Code: https://github.com/Harsh43054/Agriculture-Doctor

Web-Designing-Aimt

Tech Stack: HTML, CSS, JavaScript

- Designed a modern, performance-driven marketing agency website with a clean, premium aesthetic.
- Showcases services, growth strategy, and results through engaging visuals.
- Live Demo: https://harsh43054.github.io/Web-Designing-Aimt/
- Code: https://github.com/Harsh43054/Web-Designing-Aimt

INVOLVEMENT & LEADERSHIP

Coordinator | YUCI (Youth Council of India)

- Coordinated climate awareness initiatives and events on campus.
- Organized workshops and campaigns to promote sustainability and environmental action.

Secretary | CSI (Computer Society of India), Ambalika Institute

August 2026 - Present

- Managing chapter operations, organizing events, and driving member engagement.
- Coordinating technical workshops, seminars, and competitions for students.

Campus Lead | Open Source Connect India

August 2026 - Present

- Promoting open-source initiatives and encouraging student participation on campus.
- Organized outreach activities and supported open-source events and programs.
- Created content and coordinated with students to increase community engagement.

Community Manager | APYX Company

May 2026 - August 2026

- Worked on community growth, UI improvements, and digital content.
- Successfully organized and executed the CodeBlitz Hackathon.
- Conducted a technical workshop in Lucknow.
- Planned content and campaigns to improve engagement and visibility.

HONORS

- Shortlisted for Smart India Hackathon (SIH) & IEEE Ideathon
- Completed ChatGPT & Generative AI Workshop (IIT Delhi)
- Participated in E-Bootathon (IIT Kanpur)
